Seneca East Local Schools has provided a telemedicine benefit to you so you can talk to the doctor from the comfort of your home (or desk, car, etc.).

By using telemedicine, you can avoid:

- Spending time getting to and from the doctor’s office or urgent care
- Copays: there is **no fee** to use the telemedicine service!
- Reading month-old magazines in a germ-filled waiting room

Using telemedicine gives you a portion of your day back and keeps hard-earned money in your wallet. **Here is what you need to know:**

- No registration required—just call **888-691-7867** 24/7/365.
- Diagnosis and treatment provided conveniently via phone.
- When appropriate, you may receive a prescription.

Be well,
